

Resolution of the SI Council on Ukraine

At this second anniversary of Russia's full scale invasion of Ukraine the Socialist International expresses its full support to the Ukrainian people.

The continuation of this unjust war not only threatens the democratic values and the integrity of Europe but also has a big impact in global economy especially to energy and food markets. Furthermore the impact of the war in grain markets has worsened an already existing hunger crisis .

- We ask for the withdrawal of the Russian troops from the Ukrainian territories, the restoration of the territorial integrity of Ukraine and the avoidance of any further escalation. It is of paramount importance to ensure nuclear, energy and food security.
- We ask for an exchange of all captives and prisoners of war and the return of deportees.
- We ask for the creation of a special tribunal to investigate crimes against Ukraine as well as of a compensation mechanism for the damage caused to the country because of the war.
